

## Singapore national aeromodelling championship 2009

Once again it is the national event of the year! The championship this year drew a total of 149 competitors from local to overseas modelers. At the competition FAI F2B, F2C, F3A and 3DX were held over the course of 7 days.

F3A had a total of 3 Singapore pilots, 4 Malaysian pilots and 3 Thailand pilots. What lies ahead for these competitors over the course of these few days was breath taking, starting from the arrival of the pilots till to the end of the prize giving ceremony.

Results of the competition are as followed.

The championship results were an important piece of evidence of how well F3A is developed in our national pattern flying system. For the first time ever to have a round of the Finals schedule F-09 being flown in local competition was an eye opener for many people. Spectators were treated to the jaw opening difficulty of executing such maneuvers with perfection. Even fellow competitors also awe at the way the top pilots compete for supremacy by flying one round of F-09. Among the final 4 whom went to the finals, 2 Singapore pilots made it whilst 2 Thailand pilots in the race too.

At the end our defending champion Junkai emerge once again the champions while 2<sup>nd</sup> and 3<sup>rd</sup> position is taken by the Thai pilots. It was a fun and adrenaline event for all whom been through such an event. Hope to see you all again.
